What is fair? Payment limitations are not fair.  
Reducing payment limits is a bad idea. I am a  
farmer in my area that is considered small (about 1000 acres).  
I do not hit the present limits. I think it is unAmerican  
to tell my neighbor who farms 3000 acres that because  
of his hard work & risk taking he should be handicapped  
by his government and he told he is bad and the government  
is going to beat him up.
